

BMT

HERMLE APPLICATIONS

Hermle machines are at the forefront when it comes to optimised results. The proverbial Hermle precision in combination with process consulting and project management has made Hermle a most important machine partner in nearly all key sectors - ranging from large-sized complex components to micro-components in the high tech field.

Applications

Tool and mould making
Highly dynamic simultaneous 5 axis machining
Medical engineering
Difficult to machine material - in record time
Aerospace
Precision in perfection
Rapid Manufacturing
Acquisition of 3D data for Rapid Prototyping
Mechanical engineering
Fully automatic and flexible manufacturing systems
Motor Sport
Highest precision at high availability
Subcontract industry
Dynamic, precise and reliable
