

COMET L3D

ACCESSORIES AND TECHNICAL DATA

COMET rotary

Rotation table for the automated positioning of small and medium-sized objects (up to 30 kg weight). Control via COMETplus software.

COMET dual rotary

Rotation table with turn/tilt axis for automated positioning of small and medium-sized objects (up to 20 kg weight). Control via COMETplus software.

Technical Data

COMET L3D 2M

Camera Resolution	1600 x 1200
Measuring Volume in mm ³	
100	100 x 75 x 60
200	215 x 165 x 140
400	400 x 300 x 250
3D Point Distance in µm 100 / 200 / 400	60 / 135/ 250
Shortest Measuring Time in Seconds	1.5
PC	Available with desktop PC or notebook
Sensor Positioning	Tripod or sensor stand with manual rotation and tilt axis
Automatic Object Positioning	Rotation table, robot (COMET rotary, COMET dual rotary)
